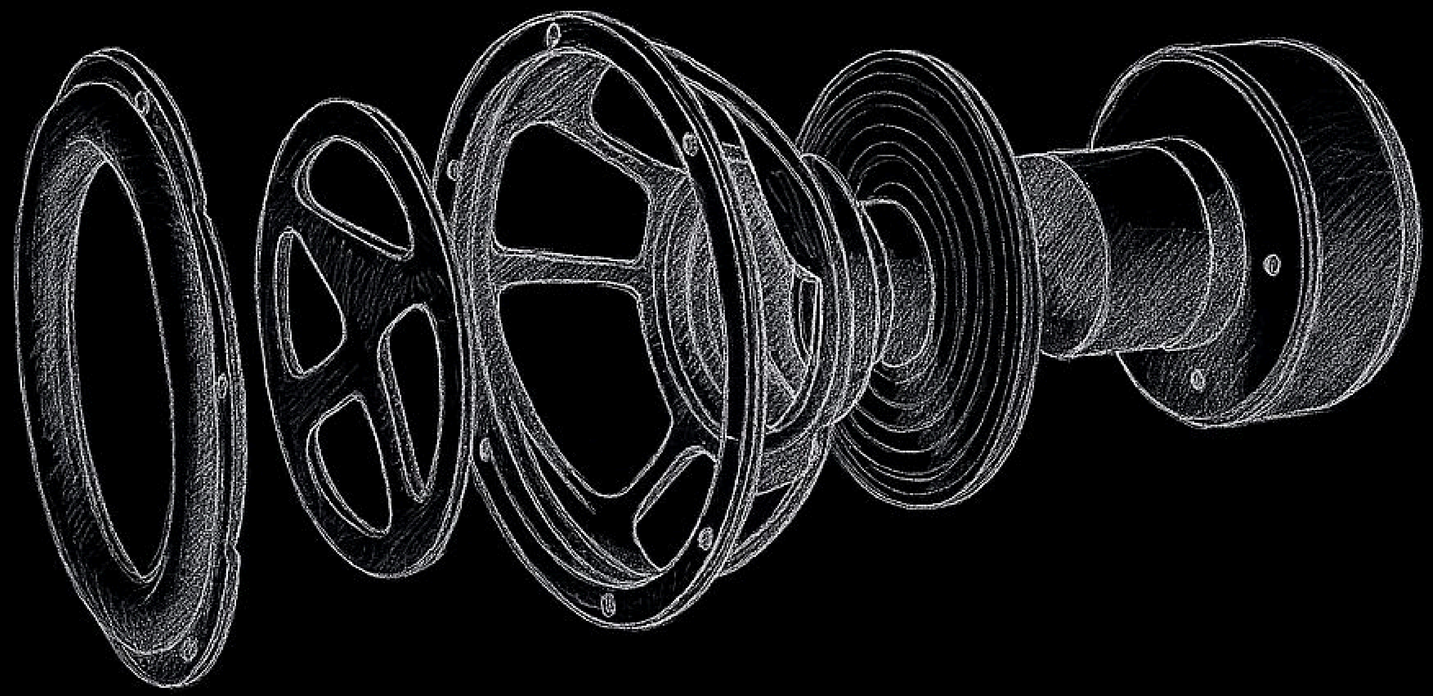
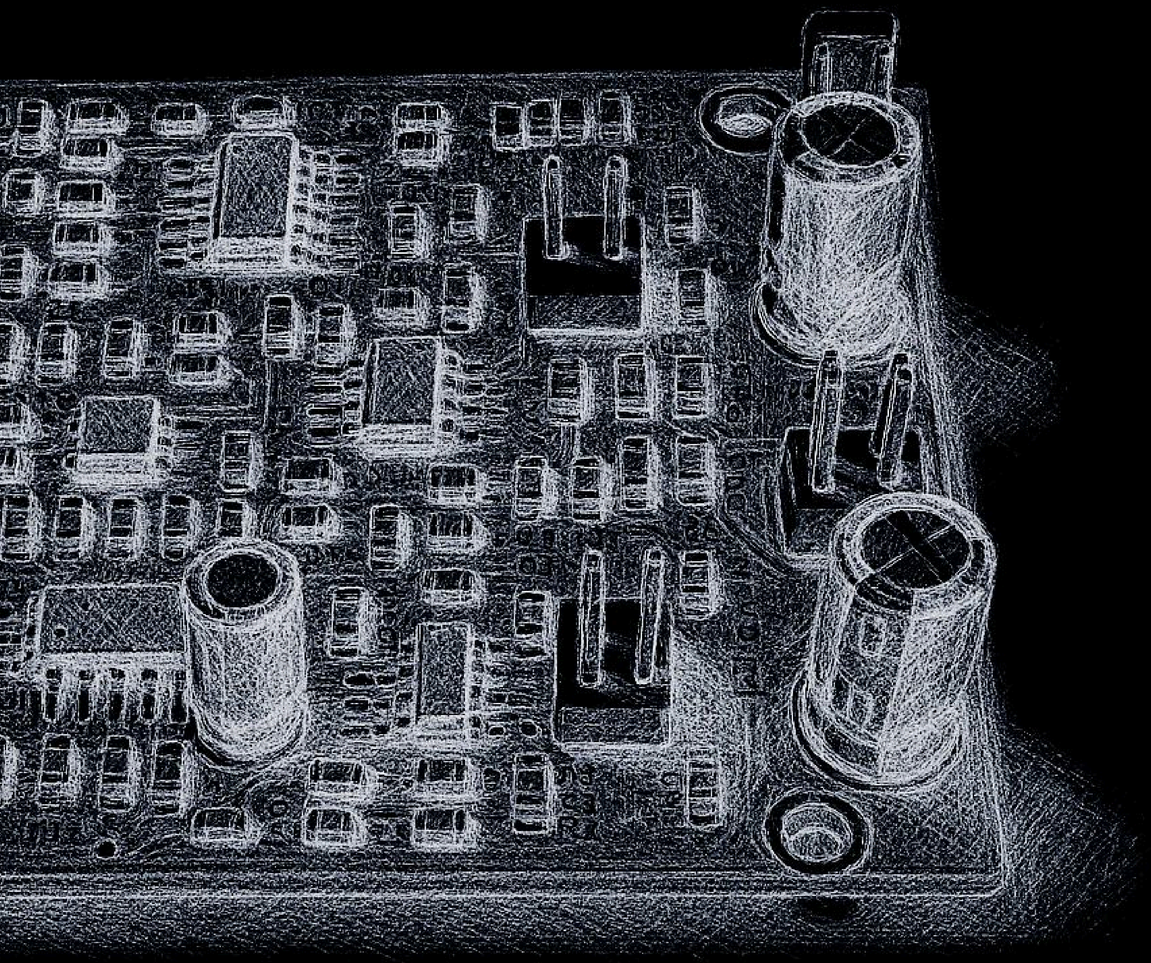
ABOUT US

Our Vision Is To Revolutionize The Way We Think About Audio Solutions For Modern Spaces. We Believe That Bulky, Intrusive Speakers Are A Thing Of The Past And That Audio Technology Should Seamlessly Integrate With Modern Interior Design.

At XSCACE, We Believe That Audio Technology Should Complement The Modern Interior Design, Not Detract From It. Our Innovative Range Of Audio Solutions Seamlessly Integrates With Minimalist Spaces, Enhancing Their Functionality And Beauty. With Custom Colour And Discreet Installation Options, XSCACE Empowers Designers And Architects To Create Stunning Environments With Exceptional Sound Quality. Experience The Future Of Audio Design With XSCACE.
Our Speakers Are Made By Award-Winning Audio Engineers From The University Of Toronto



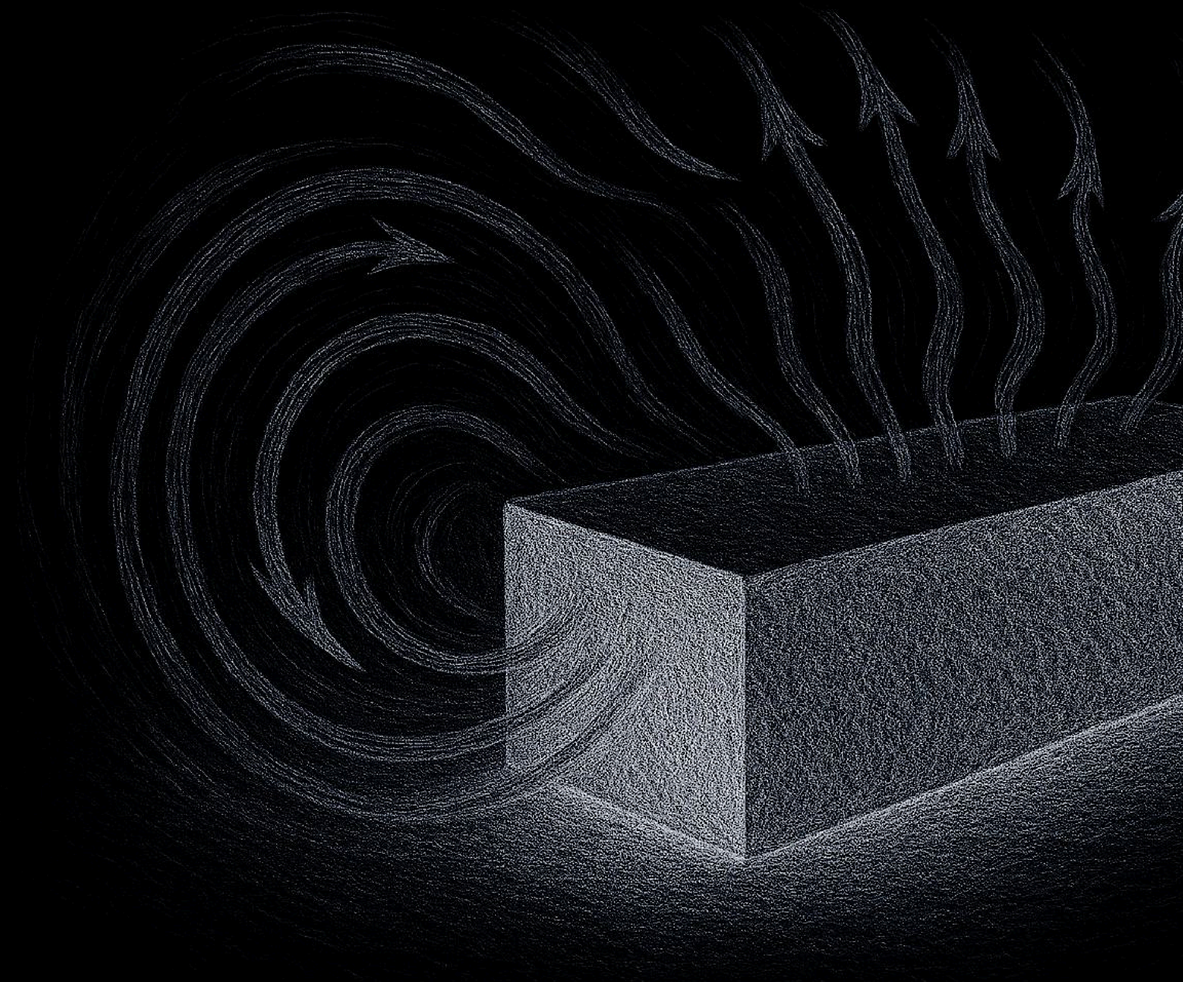


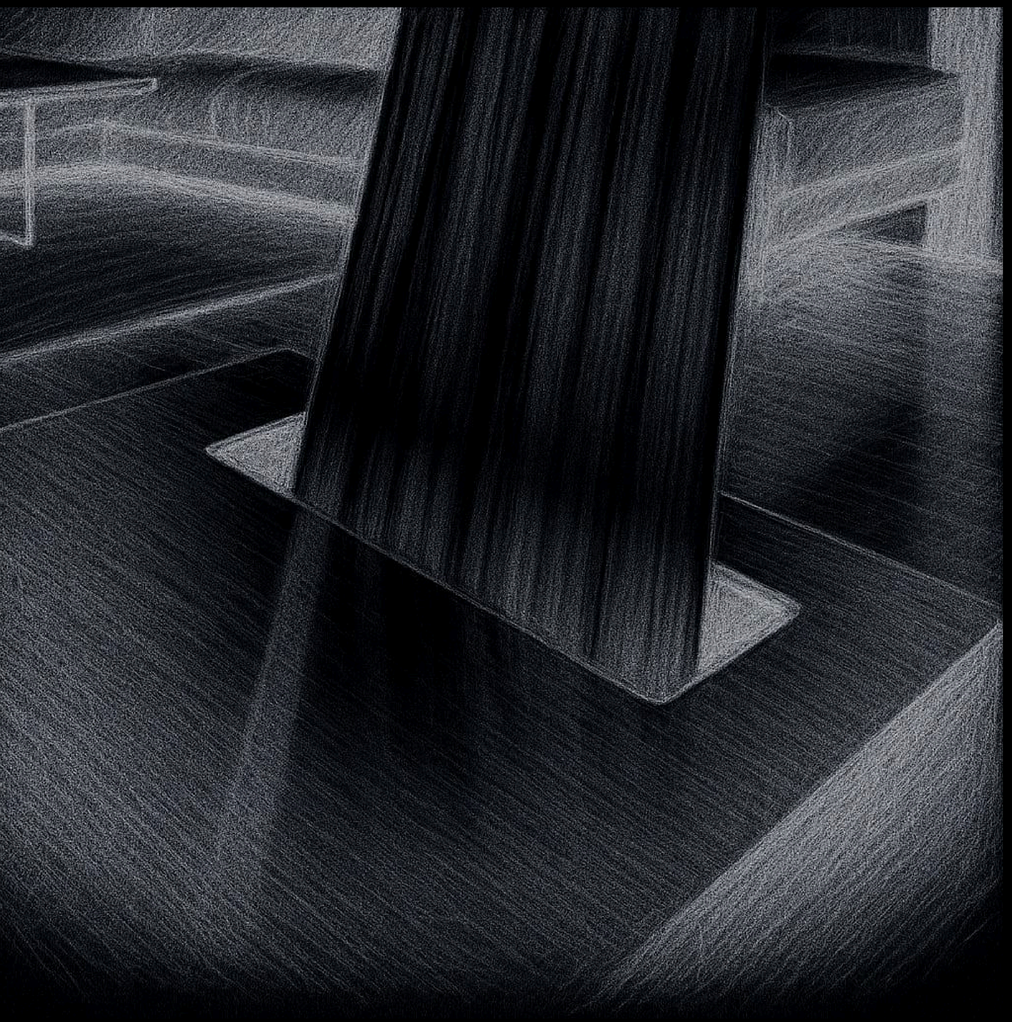
Built-In Passive Crossover

XSCACE Speakers Come With A Built-In Passive Crossover, Reducing The Need For Complex DSP Adjustments, Which Results In Simpler Installation And Tuning Processes.

Efficient Heat Dissipation

Aerospace Grade Aluminum Body Offers Superior Thermal Conductivity, Rapidly Transferring Heat From Internal Components. The Housing Acts As A Passive Heat Sink, Enhancing Thermal Dissipation And System Reliability.





Ported Design For Deeper Bass

The Ported Design In XSCACE Speakers Enhances Bass Response, Delivering A Richer And Deeper Sound. This Is Especially Beneficial For Music And Cinematic Audio Experiences.
